

What UpScale Means to the Purifoy Family

UpScale came to my rescue and not only had someone available for me immediately, but they had a care plan in place within 24 hours and the “right” fit for my mother!

They were even able to assist me in modifying our home to accommodate (my mother’s disabilities with wheelchair ramps, shower and bathroom handicap rails) and virtually everything we needed to make this transition easier.

My Inspiration

UpScale Healthcare LLC is a professionally staffed healthcare agency inspired by Mrs. Helen Cole. Many years ago, I cared for her mother. It was through these trials that inspired me with a passion for the elderly and disabled.

Mrs. Leola Simpson, my dear grandmother, was the first to assure me of this gift of caring.

This passion has followed me through many clients and the deep desire to make a difference. I will continue to serve with excellence, compassion, professionalism and love.
